

WOW!

WORLD OF ORGANIC WINES

WOW! is a trade exhibition dedicated to organic and biodynamic wines. To guarantee the quality of the products presented, we have drawn up a self-evaluated Confidence Charter to provide more details on the specific credentials for each of the wines on show. Any exhibitor failing to abide by the declarations concerning their products may be refused admission to the exhibition for violating this charter.

THE CONFIDENCE CHARTER COMPRISES THE FOLLOWING ITEMS:

- A statement that the entire estate is managed in accordance with the organic or biodynamic methods currently applicable in my country or region, compliant with articles 32 and 33 of EU Regulation (EC) 834/2007 for the European Union and with the National Organic Program (NOP) governed by USDA (the United States Department of Agriculture) or with any other state regulations that apply.
- Producers declare that they do not use the following processes:
 - Reverse osmosis
 - Cryoextraction
 - Dealcoholisation (including the spinning cone column process)
- Producers certify that they are audited and monitored by the appropriate organisation (certificate to be attached).
